Freight charges for core returns are the responsibility of the customer

**\$300 CHARGE FOR ENGINE RETURNED
WITHOUT FLUID DRAINED (see reverse)**

****Please read the Core Acceptance Criteria on back prior to shipping****

*****CORE ACCEPTANCE CRITERIA*****

Return within 90 days (exceptions by approval only)

Core Tag must arrive attached to returned core to avoid \$300 credit reduction.

Drain Core - Completely drain and recycle or properly-dispose of all fluids. If fluids are not drained, credit will be reduced by \$300. To receive full credit, you must drain all coolant from the engine block, oil cooler and water pump. Drain all oil from the engine block, remove oil filters, and seal all openings with plugs and covers from the replacement engine or with puncture resistant tape. Leaks or oil spills during transportation are very serious and are a health and safety risk. PPI customers are liable for any cleanup costs or damage resulting from in transit leaks or spills.

Engine Skid originally provided must be returned with core securely attached to avoid \$300 credit reduction.

To receive a full core credit refund the following conditions must be met in addition the criteria stated above.

- The major castings (block, head and crank) must be rebuildable
- The core must not exhibit any visual defects such as cracks, holes, breaks, corrosion or abnormal wear on any external surfaces
- No corrosion is present
- The engine core is the same build specification as the remanufactured engine or is an acceptable alternate*
- Engine core has not been previously disassembled*
- All components (entire core) must be returned
 - o Oil pan
 - o Rear crankshaft seal housing
 - o Front crankshaft pulley
 - o Timing cover(s) and case
 - o Injection pump (correct for build spec.)
 - o Water pump and pulley
 - o Thermostat housing
 - o Valve cover
 - o Oil filter (if applicable)

***** FAILING TO MEET THIS CRITERIA WILL RESULT IN PARTIAL OR NO CORE CREDIT REFUND*****

* Please contact a PPI reman engine sales representative if you have questions concerning the acceptability of your core return prior to shipment.
